ph: 631-821-1101

## **PRODUCTION CAPABILITIES**

### **-- ISO 9001:2000 CERTIFIED**

- Processes include:** Slitting, edging, temper rolling and gauge controlling, cut-to-length, polishing and masking.
- Alloys available:** T440//436//435//434//430//420//410//409//347//321//316 & 316 L//310//309//305//304 & 304 L//302//301//201.  
Special grades upon request.  
Various alloys of copper and brass available.
- Technical:** Coil I.D.s from 3" (76.20mm) through 24" (609.6mm), O.D.s to 54" (1371.6mm), pancake (ribbon winding), and oscillate winding to spools/reels/bunch-coils.  
Depending on gauge and width required, tolerances of +/- .0005" (.0127mm) on thickness and +/- .0015" (.038mm) on width are available.
- Packaging:** Standard platform skids with runners for domestic shipment, shrink-wrapped if requested. Custom boxing, export crating, special skidding available to spec.
- Quality:** Our A2LA Certified lab can provide testing to AMS, ASTM, AISI, DIN, JIS, or customer supplied requirements.
- Inventory:** Changes constantly; thickness generally starts at .001" (.025mm) and goes thru .250" (6.35mm).
